Character Sketches 3 volumes - \$180

The very nature and character of God is seen all throughout His created universe. Job remarked, “But ask now the beasts, and they shall teach thee; and the fowls of the air, and they shall tell thee: Or speak to the earth, and it shall teach thee: and the fishes of the sea shall declare unto thee” (Job 12:7–8).

Each section of this Character Sketches volume begins with a captivating “read-aloud” nature story that introduces the character quality being taught and continues with interesting facts on the featured animal’s characteristics and physical features. This is followed by a story from Scripture that illustrates the character quality, along with background information on the individual or situation in the story, which is then summed up in a “character sketch.” Generously illustrated with stunning lifelike watercolor and pencil drawings, this oversized book (9 1/4" by 12 1/4") will be treasured and enjoyed for generations.

The series is designed to be a tool that fathers can use to teach their children basic concepts of Scripture that are illustrated in the world of nature. Among our best-loved publications, hundreds of thousands have enjoyed the gripping stories and beautiful illustrations that the volumes contain.

Sonlight Curriculum

SonLight School Curriculum

The SonLight curriculum is written and maintained by SonLight Education Ministry, USA. Their website at SonLighteducation.com provides details of their educational philosophy, which centres around the way Christ educated His disciples, while on earth. This presents us with a method quite different from the popular educational systems of today, but can save children from an endless round of bookwork, with inadequate practical experiences.

"And you shall teach them diligently to your children, and shall talk of them when you sit in your house, and when you walk by the way, and when you lie down, and when you rise up." Deut 6:7

"For many years we have studied from the Bible and other religious sources how to implement this kind of education into our SonLight homeschooling curriculum. We are endeavoring to follow this counsel and teach others what God's Word tells us about true Christian education." SEM, USA.

Details of the curriculum contents are found under our "School" menu, under Parent Training, and the seven SonLight subject areas of Maths, Language, Voice, Music, History/Geography/Prophecy, Nature and Health.

Many of the SonLight materials are now available free in PDF format.
